

PayPlus CARD READER

COMPATIBILITY LIST

Reference the list below to see if your machine is compatible with the PayPlus Card Reader!

Machine compatibility is listed as “Yes,” “No,” or “Yes with Upgrade.”

“Yes with Upgrade.” machines may require upgraded boards, specific configurations, or additional hardware.

DON'T SEE YOUR MACHINE BELOW? REACH OUT TO US AND WE'LL HELP YOU IDENTIFY COMPATIBILITY!

Please note: This list is not the final word on whether your machine is 100% able to accept cashless or not. We intend this list to be a quick guide to see which machines generally accept cashless readers. Your machine must be both MDB and DEX capable to get the most out of your cashless readers. To be safe, ask your technology provider about your specific machine before you purchase readers.
